

## Aloe Butter

Aloe butter is extracted from the aloe vera plant using fractionated coconut oil. It is not to be confused with shea loe butter but does have some similarities.

### WHY ALOE BUTTER IS GREAT:

- Inexpensive in comparison to some of the alternative butters i.e. shea butter.
- Aloe butter is light, moisturizing and not as greasy as some of the other butters available. It is light and will not weigh heavily on your hair

### HOW TO USE ALOE BUTTER:

- Aloe butter can be used alone or mixed with other butters.
- Aloe butter can be used to enhance your hair moisturiser, just add some aloe butter to make it even more moisturising.
